## Answer to Prayer

Aymara and Quechua peoples, who date back to pre-Inca times, have both experienced major church growth in their midst, and spiritual responsiveness seems to be increasing.

## Challenge for Prayer

Evangelical Christians are growing in number and in influence, but face many challenges. Low literacy levels, lack of biblical knowledge and limited discipleship opportunities give rise to theological error and moral failure. There is a great need to raise the standard of discipleship. The Association of Evangelicals (ANDEB), a major fellowship link for churches, is committed to widespread prayer and unity. Pray for these to be achieved and for believers to increase both in quantity and quality. Some other evangelical goals are:

- a) For Bolivia to become at least 30% evangelical. While growth is impressive, this goal is still some way off from being achieved.
- b) Increased mission sending. Bolivia's sending has increased significantly, but there is still scope for further growth, especially into cross-cultural missions.
- c) Social engagement. Evangelicals must be at the core of Bolivia's battle against poverty, injustice and vice by demonstrating radical Kingdom values.
